

## **ROOF-540™** **Why to Choose ROOF-540?**

### **A HISTORY OF SUCCESS**

AWC has been manufacturing roof coatings systems for over 10 years, with over 10 million square feet of roofing on projects from North to South of India. AWC was a pioneer in the development of an elastomeric acrylic roof coating and we will continue to set the standard in the industry.

### **CODE APPROVALS**

Appropriate fire testing and code approvals are a fundamental component of AWC roof coating philosophy. **Roof 540** is UL 790 Class “A” classified, Factory Mutual approved, and ICC listed. It also meets Federal Specification #RRR-S-2838 and ASTM D6083 “Standard Specification for Liquid Applied acrylic Coating Used in Roofing”.

### **100% ACRYLIC POLYMERS**

**ROOF 540** is manufactured exclusively utilizing 100% acrylic polymer resins. The result is a tight, cross-linked finish that retains its physical properties to provide long-term weather resistance, UV and color stability, mildew resistance and dirt repellency.

### **APPLICATION VERSATILITY**

The **Roof 540 System** can be applied virtually any new or existing roof substrate. The life of China Chips can be extended dramatically with the application of **Roof 540**.

### **CERTIFIED CONTRACTORS**

**Roof 540** is applied by a network of certified applicators who have been trained on proper surface preparation, installation techniques and procedures. This assures the building Owner of receiving a warranted, water tight installation.

### **WE'RE GREEN**

All **Roof 540** components, from our primers to our topcoats, are VOC compliant and non-hazardous to the environment. We take this responsibility seriously, as evidence by our numerous awards for recycling, waste reduction and energy conservation excellence.

### **SYSTEMS SPECIFICATIONS**

AWC provides specifications in printed form, on Cd or through our website for the application of **Roof 540** over China Chips and concrete roof substrates. Our catalogue also contains complete technical data, testing documentation, detail drawings and warranty information.

### **TECHNICAL SUPPORT**

AWC prides itself on a technical service staff that is second to none. Our sales and service personnel are experienced, Knowledgeable and efficient. A network of field offices, Representatives and Distributors assures our customers of expedient, on-site service when and where it is needed.

### **ENERGY STAR® & COOL ROOF PROGRAMS**

AWC is a charter partner in the Environmental Protection Agency's ENERGY STAR® Roof Products Program as well as the Cool Roof Rating Council. **Roof 540** has been independently tested and certified to meet California Title 24 and LEED program requirements as well as Miami Dade Country.

## ***WE GUARANTEE IT***

**ROOF 540** when properly applied, is covered by non-prorated 10 years warranty programs. These extendable warranties are a guarantee to the Building Owner that the installed system will remain leak-free for the term of the warranty.
